When day after day drive-in restaurant operators report "double" volume since adding *car canopies*, you readily see NAVACO STRUCT-O-CURVE rates high on your priority list this Spring! Here's a unit that will pay for itself in a matter of months in increased sales. So versatile, too! Any number of sections joined to fit your specific space needs.

Available in 15′ x 20′ and 20′x20′ sections, utilizing the architecturally accepted and successfully proven NAVACO STRUCTURAL PANEL roof design. Sturdy Hi-baked enamel aluminum roof panels which interlock, and the new translucent Rigid Vinyl – each serving as its own drainage system without large concentrations of water. Triple steel beam understructure.
